This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

THE MONTHLY REVIEW hath been carried on for ſo extended a period, and continued through ſo many Volumes, that the generality of its readers have repeatedly expreſſed a wiſh for a GENERAL INDEX to the whole. So miſcellaneous, indeed, are the Contents of the work, and ſo various are the topics which are treated in it, that an eaſy or expeditious reference to particular articles, or ſubjects, hath long been deemed almoſt impracticable.

The Plan which was adopted in the Catalogue of undeſcribed Manuſcripts in the BRITISH MUSEUM *, hath been followed, on the preſent occaſion. The reader may, therefore, conſider the Two Volumes, now laid before him, as calculated to exhibit and diſplay the ſtate of Engliſh Literature during a period of THIRTY-FIVE YEARS,

The FIRST Volume contains an Index to the *Titles*, AUTHORS' NAMES, *Sizes*, and *Prices* of all the Books and Pamphlets (digeſted under their reſpective claſſes) which are characterized in the Reviews, from the beginning of the Work, in 1749, to the end of the SEVENTIETH Volume, which was finiſhed in the year 1784. This comprehenſive *Catalogue* contains, nearly, (indeed with ſcarce *any* omiſſions) all the Publications in *Great Britain* and *Ireland*, during that period; together with the moſt conſiderable productions of the *Foreign* Preſſes.

---

* A Catalogue of the MSS. in the Britiſh Muſeum hitherto undeſcribed, 2 vols 4to, 1782. *Vide* Monthly Review, vol. lxviii. p. 389.

As ſo great a number of articles, in one *General Alphabet*, would have rendered it very difficult to conſult, occaſionally, the Books on any particular ſubject, eſpecially *anonymous* publications, the expediency of an arrangement under the proper claſſes, or general diviſions of literary ſtudies, is ſufficiently obvious.

Anonymous Tracts are, therefore, claſſed under the ſubjects on which they were reſpectively written, and not, after the uſual manner of Indexes, under the firſt, or leading word of the title: a vague and deſultory method, by which the object of the ſearcher is too often eluded, and his wiſh, perhaps, diſappointed at laſt.

On ſome very important ſubjects, all the publications, as well thoſe which are printed with the Author's name, as thoſe which are anonymous, are entered under the head to which they *chiefly*, if not *immediately* belong; for inſtance, the articles of *Bible*, *Jews*, *Subſcription*, &c. in THEOLOGY; and *America*, *Eaſt Indies*, *Ireland*, &c. in POLITICAL: but this arrangement has not been invariably obſerved,—as, in the ſmaller claſſes, it was unneceſſary.

In regard to the original Controverſies, all the *Anſwers*, *Replies*, *Rejoinders*, &c. will be found under the name of the AUTHOR, or TITLE of the leading book. The work of the Writer under whoſe name it ſtands, is diſtinguiſhed by the Roman character; the titles of the Anſwers, &c. are printed in *Italics*; and under the Anſwerer's name, his publication will alſo be found. The *anonymous* productions of this nature, are, in general, placed under the name of the *original Author*; or, if it may be ſo termed, in the *Controverſy*: for example, *Lowth*, *Kennicott*, *Middleton*, &c. in the Claſs of THEOLOGY; *Gibbon*, &c. in HISTORY; and *Garrick*, *Chatterton*, &c. in POETRY.

Tracts relating to particular or popular characters, are collected under the name of the Perſon concerning whom they

they were written: as in the articles relative to *Keppel*, *Pitt*, *Wilkes*, &c. in the Claſs of POLITICAL publications.

In reſpect to the Prices of Books and Pamphlets, they are given as they ſtand in the Reviews; and it muſt be obſerved, that they are ſometimes the prices *bound*, or in *boards*, or *ſewed*; which it was not poſſible to diſtinguiſh, in every inſtance, with perfect accuracy. The names of the Bookſeller and Publiſhers will be found in the Reviews; to which the reader is conſtantly directed, by the Firſt Volume, or *Catalogue part*, as we may term it, of this Work.

For the accommodation of thoſe who may wiſh to know what hath been *written by* or *concerning* any particular Author, during the period of the Reviews, an INDEX to ALL the *Names* is added to the TABLE of CONTENTS, of which the Firſt Volume conſiſts.

The PREFACE is followed by a Liſt of the various Claſſes into which the Firſt Volume is divided; and likewiſe, a Table of the Volumes of the Reviews, with their Dates.

In the SECOND VOLUME is given an INDEX to the principal Extracts, Obſervations, and remarkable Paſſages. As theſe materials could not be ſo properly arranged in Claſſes as thoſe of the Firſt Volume, they are wholly comprehended under one General Alphabet; and the particulars are literally copied from the original Indexes, ſubjoined to the different Volumes of the Review.
